DATA SHEET ROUND 10060 LED LAMP SERIES

Double light power LED lamps for application on existing structure

- ➢ Metal-Core PCB 1,6mm thick, 60mm diameter.
- ➢ Integrated heatsink with fixing holes.
- ➢ 4 + 4 on board power led series, separately controllable (it's not possible light up at the same time the two different led series).
- ➢ Colour temperatures available for white led 3500K, 4000K, 5700K.
- ➢ Led colours available Red, Amber Yellow, Green, Blue.
- ➢ +24 Vdc costant current power supply with on board 350, 500 or 700mA driver.
- ➢ Room temperature 25°C.
- ➢ Average lifetime 50.000 hours.
- ➢ Tripolar insulated cable 10 cm or 50 cm long for connection with tripolar male M8 connector or tripolar insulated cable 50 cm long with free endings.
- ➢ Compliance with EN 62471:2008-09 group 1
- ➢ CE Marking

Model	Dimensions (mm)	Lux at				
		50cm	*100cm*	*150cm*	*200cm*	*250cm*
LN100605NRxxxxx[1]	100 x 100 x 32	1050	270	130	75	50
LN100605NRxxxxx[2]	100 x 100 x 32	400	100	50	30	20
[1] WHITE LED 4000K [2] RED LED 627nm with 500mA driver						

- ➢ Led typical wavelengths for different colours

Blue	475 nm	Green	530 nm
Amber yellow	590 nm	Red	625 nm
